This article is a list of fictional characters in the comic book series Scott Pilgrim by Bryan Lee O'Malley and his film adaptation of Scott Pilgrim vs. The World. For the characters in the movie version, O'Malley sent crib sheets that explained the backstory, character motives and events in the book by Michael Bacall and Edgar Wright. Bacall then created a list of ten secret things for each character, according to O'Malley, for fun, and many of the recordings were jokes: O'Malley said that the documents of ten secret subjects were not meant to be taken seriously as a character background. [1] [2] O'Malley created a height chart for the characters printed on Volume 1, but said, It's certainly not a canon, and I've never done it again, and the heights have always been very inconsistent. [3] With the exception of five characters, O'Malley said that heights were always kinda hazy. I didn't pay enough attention to it. [3] O'Malley said that at the time of the book's creation, the hair colors of the book barely crossed my mind (I just used any color that at the time looked beautiful if I painted a cap or illustration). There were no canonical hair colors in my head. [4] Key characters in Scott Pilgrim Scott PilgrimBook dust jacket Scott Pilgrim's Precious Little Life.Art by Bryan Lee O'Malley. Publication informationPublisherOni PressFirst appearancesScott Pilgrim's Precious Little Life (2004)Created byBryan Lee O'MalleyIn-story informationFull nameScott William PilgrimAbilitiesVideo game-based combat skills, graphic novel based on agility and speed, control of subspace and glow, owner of understanding power Scott William Pilgrim is a 23-year-old (22 films and 24 volumes 5-6) protagonist. He is the bass player of the band Sex Bob-Omb with his friends Stephen Stills and Kim Pine; He plays Rickenbacker in the 4001c64, 4003 film. Although initially unemployed, he later gets a job as a dishwasher and food prep trainee at Happy Avocado vegetarian restaurant. The character's name was inspired by the song By Scott Pilgrim from Plumtree's 1998 album Predicts the Future. He thinks that smoking is evil, drinks sometimes, and don't hit the girls. Scott seems to be suffering from memory problems, which his friends chalk up to his stupidity, although memory problems began after his split with The Envy of Adams, whom he dated through college. The series also refers to the dark side of Scott's personality, which he avoids as much as possible. He was initially devastated by his split with Envy Adams and begins dating Knives Chau, before meeting Ramona. Ramona and Scott start dating, but Scott suffers Ramona's elusive past and her 7 evil exes are headed by the mysterious Gideon, all of whom challenge him in a row for right so far in her. Despite limited intelligence and poor memory capabilities, Scott can often defeat his opponents through cunning rather than brutal strength: both volume 2 and movie adaptation, he manages to goad Lucas Lee out a dangerous skateboarding trick; As well as the film adaptation, he successfully tricks Todd Ingram into consuming dairy products despite Todd's mental powers. Scott is a surprisingly skilled fighter in an unarmed fight and sword fight. His hair is usually messed up after Ramona laughed at Scott when he had straight hair. He often dreams of stupid games until Ramona tells him to get a job. Scott Pilgrim was ranked as the 85th greatest comic book character of all time in Wizard magazine. [5] Empire magazine ranked Scott Pilgrim as the 40th largest comic book character, stating that Scott is one of the most authentic twenty-something ever committed comic book paper. [6] IGN ranked Scott Pilgrim the 69th greatest comic book hero of all time, stating that they love Scott not only because he is a tried and genuine nerd who struggles with villains in epic fashion, but because he has survived a dramatic character bow during his series. [7] O'Malley said that Scott was not based on any person, although referring to a friend he said [s] the only guy who has any claim to inspire Scott, and this purely visual personality is all fiction. [8] Gabrielle Drolet of the UWO Gazette stated that Scott began acting as a beautified version of Bryan and was then fleshed out. [9] O'Malley said Scott is a little taller than Ramon. [3] The film adaptation of Scott plays Michael Cera in the film Scott Pilgrim vs. The World. Just before the start of filming, Cera received a list of secrets (some of which are already in the books, some of which are neither in books nor in the film) about the character. Cera said: One that really stays in my head is that Scott, in his opinion, is the star of his movie. This film exists in a way in his own mind. It's his strange perception of the world around him. [10] Cera also voices Scott for the animated short Scott Pilgrim vs. Animation. Ramona Flowers Ramona Victoria Rammy Flowers is an American expat from New York, a ninja delivery girl on Amazon and Scott's main love interest. Her age is unknown until Volume 4, where she reveals that she is 24 years old. She reveals very little and is very guarded about her past in New York before she moved to Toronto. She can travel through the subspace and has seven evil exes who challenge Scott for her love. She changes her hairstyle every three weeks and becomes anxious when Gideon is mentioned or brought up. Her head glows periodically, usually when she is upset, jealous, or heartbroken (it's revealed that the gideon's work, which zapped Ramona with a glow psychological weapon that locks the target in her head with nothing but their emotional baggage), though she herself doesn't know about it until Kim Pine points out it's Volume 5. Asked if Ramona should be fat or plump, O'Malley replied that since this is a comic book and I draw everyone kinda cartoony and rounded up, I figure it up for the reader to decide. However, I have to inform you that the knives were mostly this when she said Ramona was fat. [11] Her natural hair colour is not specified. O'Malley said: No one knows their natural hair color. Ramona may not even remember. She changes this very much because she tries to figure out who she is/who she wants to be. On another occasion, when asked, O'Malley replied, I don't know... Brown? How many natural hair colors are really there? She's not blonde. Actually, I never thought about it... the color of her hair did not matter to me. Because I was drawing a black-and-white comic. Her hair color is whatever u [sic] desire --. [12] In the new editions of Volume 2, Ramona's hair was purple, leaving ramona hair in blue for 4 volumes and other volumes. [13] O'Malley said that if Ramona hypothetically broke up with Scott after volume 6, she would change her hair to the length of the chin, an awkward bob with black-painted and chopped explosions: O'Malley explained that he never used this ramona hairstyle because it is too similar to the shape of Kim Pine's hairstyle. [14] As for Ramona's height, O'Malley said it had to be tall, which means about 5 feet 8 inches (1.73 m) or 5 feet by 9 inches (1.75 m). [3] Ramona subspace bag periodically changes color, like hair. Throughout her dating story Ramona had one non-evil ex, Doug, whom O'Malley named on behalf of one of his real-life friends. [16] Ramona Flowers ranked 70th on the Comic Book Buyer's Director's List of the 100 sexiest comics women. [17] The film adaptation of Ramona plays Mary Elizabeth Winstead in Scott Pilgrim vs. World. O'Malley stated that some audience members perceived the movie Ramona as a colder character in the film, and that a possible factor was that the film was originally written and filmed with an ending in which Scott returns to the knives rather than moving with Ramona. [18] Just before the beginning of filming, Winstead received a list of facts about Ramona's past. [19] [20] When asked what those facts were, she replied: I don't know if they are the things that Bryan would like to do there, so I put them quietly. But it's all about our family- in a way she's a tragic figure. She survived a lot, so she's so guarded and mysterious. Since then Winstead has revealed at least one secret she kept very insightful to her character: Ramona's younger brother died when he was younger, and he wears one of his shoes around his neck in his memory. [21] [22] According to O'Malley, specific information about brother in ramona's version of the book does not apply. [1] After Winstead learned she was a part, she began learning to be a character in Los Angeles. Training included training tricks, pushing and combat training. Winstead said that the training was pretty cool and like there is some sort of kung fu camp. [23] Wallace Wells Wallace Wells is Scott's cool gay roommate. He is 25 years old and first met Scott in college; the circumstances in which they met are unknown- flashback shows that both were drunk and directed to Wallace's. Wallace is smarter, more responsible and more mature than Scott; he has a down job and pays for most of his expenses while they lived together as roommates. Most of their apartment furniture and items belong to Wallace and he buys most of his groceries. Wallace serves as Scott's mentor during his attempts to help Scott with training his fights with Ramona's exes and gathering intel on them. He can be trained by Scott in his fighting style, as Scott calls him a terrible master. He dates and later moves with his mental boyfriend, Mobile. The character was inspired by former O'Malley roommate Christopher Butcher. [24] The film adaptation of Wallace plays Kieran Culkin in Scott Pilgrim's film Against the World. Knives Chau Knives Chau is a 17-year-old Chinese-Canadian high school girl and a self-described Scott-aholic. Scott dates her for a short time, but breaks up with her after he meets Ramona (although he initially forgot to break up with her). Initially a quiet, typical schoolgirl, after they split, she cuts and paints her hair and changes her clothing style, hoping to win Scott back to become more hipster. Her discovery that Scott had cheated on her with Ramona caused tension between the two girls sometimes ends in an actual struggle, though later she two reach the level of making each other. She starts dating Sex Bob-omb's groupie Young Neil, although she's still in love with Scott. She and Young Neil later break up, but the knives are still stuck with the group. She initially idolizes Envy Adams, based on her success as a musician and her former relationship with Scott, but soon disappointed when Jealousy has her drummer Lynette Guycott punch knives hard enough to knock stresses out of her hair. The knives father learns about Scott's past relationship with his daughter, causing him to hunt Scott down and try to kill him. Scott later earns his consent. Knives learns about his father's plot when Scott tries to hide in the second cup, where the knives are newly recruited. Vol. 6, Knives turns 18 and goes to university. Scott and the knives align and stay friends. O'Malley used St. Michael's College School as a school opener: in real life this is an all-boys school. [25] O'Malley described his height as short. [3] The film adaptation of Knives plays Ellen Wong in Scott Pilgrim's film Scott Pilgrim against the world. Some interlocutor from GQ said: As a character, knives can be a little ... annoying. Wong replied: Put yourself in your shoes! She's a capricious young girl. At this age, you don't know what you want or where you believe in life. When the interviewer replied, But she's obsessed with Scott Pilgrim. She's pathological. Wong replied, I wouldn't say she's obsessed. This is her first time being in love with someone. She feels new emotions. [26] Wong added that Knives begins as an unfally teenager who has been protected and discovers new aspects of life with Scott, and she adds that [a]nd then Scott breaks with her and she is forced to return to her old life? No, she can't come back now! No, not after she saw what was there, so she fights for it and she wants to disagree, she's just passionate, she's determined, not annoying! [27] Wong said that when she first audited for the role, she did not know what the knives were. She enjoyed playing like knives in that audition, so she bought books and read them. Wong said she loves how free the mood she was in the early stages, she really wants to have a good time. Then I got the books and found out she's this bad ass ninja through [laughs] he just kept getting better. [28] The interlocutor told Wong that more than anything else in the movie, Knives is really going on the most difficult journey emotionally. In response, Wong said she enjoyed understanding her arc. in which her growth is undoubtedly the key to her story. It really is the story of a young girl who finds out where she fits in the world. Many of the things she encounters in this film have to do with the fact that she is the first time she encounters. I feel like other characters have all gone through their knives phase already that's kind of refreshing to see someone young and untainted. It brings a new perspective to the movie. [28] She added that she prefers the end of the cut to the end of the cut, compared to the replacement end, when the knives and Scott become a couple, saying that it complements her character. [28] Wong further explained: But what's great about both ends is that it remains unclear whether Scott is dating a relationship with knives or Ramona. It's nice to leave that open, because it's like life. You don't always close with specific answers - anything can happen and you just have to move on. [28] As part of the film, Wong said that the wire work was interesting. It's like flying! When the interlocutor that he heard many complaints about the wires causing pain, Wong stated: It hurts more guys... [26] Stephen Stills is the lead singer, guitarist and talent of Sex Bob-omb. He is 23 years old and went to university with Scott. He works at Happy Avocado vegetarian restaurant as a cook and later helps Scott get a job there as a dishwasher. Stephen has a tumultuous relationship with Julie Powers, who at one point suspects that he and knives may have a mutual appeal to each other. Although generally laconic, Stephen is known for a rare fit for neurosis, usually through quality or lack of quality, his band's music as well as irritability, usually through Scott's absentmindedness. By the end of the series, Stephen reveals to Scott that he and Joseph are in a relationship and that he went to the rest of his friends volume 5 after realizing that he is gay, so Scott asked Julie turned you gay?. Stephen claims that he didn't tell Scott because he seemed to have a lot going on with his life. He shares the title with Stephen Stills of Crosby, Stills, Nash & Young. Scott always gives him his name. The film adaptation of Stephen Stills starring Mark Webber in the film Scott Pilgrim vs. The World. Before that role, Webber had neither sang professionally nor played guitar, but learned so many weeks before filming. [29] O'Malley said that Stephen Stills' version of the film is homosexual, and that it remains closed throughout the film. O'Malley said he might not yet fully understand himself. [30] Kim Pine Kimberly Kimberly, Kim Pine is Scott's high school friend and drummer Sex Bob-omb. She is 23 years old and was Scott's first girlfriend, whom he saved from Simon Lee. The two divorced when scott's family moved to Toronto. She has a sarcastic personality and does not like many people. Kim is working on No-Account Videos throughout the series. Her relationship with Scott is usually one of annoyances to his inefficiency, but Volume 5 strongly hints that she is still in love with him, but has become resigned to the fact that he loves Ramona. She later returns home to Northern Ontario at the end of Volume 5, urging Scott to apologize ambiguously for her actions: she accepts an apology before boarding the bus. She later contacted Scott to relieve her of boredom at her parents' place. While he's visiting, Kim helps Scott remember the

reality of his past relationship and accept that he did things as a bad guy that he didn't want to take on himself. With Kim revealing that he never disappeared, that he was moving away. She had to face him after learning from their mutual friend, Lisos Miller. During Scott's final fight with Gideon, she is mentally aware of the events taking place, despite being at her parents' house. Later, she forms another group with Scott. O'Malley invented the name Kim Pine when he was in high school, first using it for the character short-lived comic strip Style before using it in the Scott Pilgrim series. [31] After reviewing the changes on television in Tropes, O'Malley explained that Kim Pine is not necessarily less attractive than other characters, but she feels she is less attractive than other characters and is therefore unsafe and/or awkward with her appearance. [32] O'Malley explained that Kim says that Jealousy is beautiful and looks bummed and clearly believes that Jealousy is more beautiful than her. But Envy is on the cover of the magazine, she's a rock star, she wears tons of makeup and she was professionally styled and photoshopped. Plus Scott dated her after Kim and it's confusing. There is more than jealousy is enough! Kim is disgusted that she's sad! [32] As for Kim's height, O'Malley said he is average. [3] The film adaptation of Kim plays Alison Pill in Scott Pilgrim vs. The World; Pill also voices Kim for the animated short Scott Pilgrim vs. Animation. Pill said that in the movie Kim cares more about Sex Bob-omb than she allows and that she cares more about Scott than she allows. She added that Kim feels a certain bitterness about the outcome of the romance between Scott and herself. [33] Pill learned to play drums for the role and performs a soundtrack. [34] Young Neil Young Neil directs here. Blonde Redhead song you will find La Mia Vita Violenta. Neil Young Neil Nordegraf is Sex Bob's omb's biggest fan. He briefly dates Knives Chau before she breaks with him. Knives admits Volume 3 is just dating him because he looks so similar to Scott. In volume 5, he is angry about how isolated he has become from his friends, and then becomes bitter and sullen, starting to smoke. He is the quietest character and is very apathetic to almost everything. He is described as Young, at least until the knives appeared. When called an, he says, I'm young, I'll grow out of it. Volume 6, Scott presents it for the first time as just Neil, who is described as the best day of his (Neil's) life. The dust jacket in front folded sleeve volume 5 calls it a hanger on and the author himself says that Young Neil is written as dopey because his eyes are covered with his hair. It was easier to write Neil as dopey than to portray him differently, given his lack of eyebrows. [quote required] His nickname is Neil Young, a frequent collaborator of musician Stephen Stills. As for his hair color, when a Tumblr user asked O'Malley why the character's hair color was light brown almost blond Scott Pilgrim Gets it Together in the color section, but in the new color editions there was a brown color that is darker than Scott's color, O'Malley replied that the reason is that I don't care what color Young Neil's hair is. (laughs) Who's young Neil even? [35] His sister Stephanie Steph Nordegraf played bongos and into Scott's old band viola, Kid Chameleon. Stephanie was Stephen Stills' roommate while they attended After Stephanie moved to pursue his education, Neil moved in and became a part of Stephen Stills' social circle. O'Malley said, That's about as much as I thought it too. It was really just an explanation of why they'd have a younger friend, and this sister/roommate setup was based on an IRL [real life] friend. [3] The film adaptation of Young Neil plays Johnny Simmons in scott pilgrim vs. world. In the film, he replaces Scott as the boss of Sex Bob-Omb when Scott refuses to play at the Gideon Theatre. Supporting characters Envy Adams Natalie V. Envy Adams is Scott's ex-girlfriend, who devastated Scott by splitting with him in college before the book's events. Initially a quiet, mouse girl, she decides to change herself and her image, becomes louder and more aggressive, eventually taking over Scott's tape and dumping him. She later reappeared, presenting the series as the lead singer and keyboardist for the popular emerging band The Clash At Demonhead. Scott describes her original personality as beautiful and doesn't understand what she has since become. Jealousy was in a relationship with Ramona's ex-boyfriend Todd Ingram and claims to know about Ramona's past. Later, she begins a relationship with Gideon, who helps promote her new solo album Chaos Theatre. She was trying to help Scott remember the real reason why they broke up (an argument he started with her that night) and prepare to fight Gideon. Despite gideon supporting his career, Jealous is unhappy with his lack of true love for her. Gideon later reveals that he has no real interest in it. After the defeat, Jealousy reconciles with Scott. O'Malley drew inspiration from several sources, including Metric frontwoman Emily Haines as the singer's character. O'Malley used Haines images as references to Jealousy's drawings in Volume 3. He stated that he did not fully justify jealousy on Haines. He stated that he did not personally know Haines and did not know what her personality was, so the personality of Envy did not originate in Haines. [36] O'Malley stated that her hairstyle was inspired by Asuka Langley Soryu. [37] Jealousy is played by Brie Larson in Scott Pilgrim vs. World. In the film Envy has no relationship with Gideon, and it was originally intended to replace Ramona's fourth Evil-Ex, Roxie (Rox y in the film). [quote required] In the film Envy has light hair, not red hair. [38] Edgar Wright initially read an unlimited volume, so he did not see the color covers until later. He imagined Jealousy being a blonde. Discussing Envy with O'Malley, he identified her as a blonde. O'Malley said that while he colored his hair red at one point, the character may have a good look with blond hair. A red wig was applied during the initial costume tests[4], but O'Malley said, No one was super into it. During the light hair test, it is clear that we all loved him. [38] O'Malley so we all liked platinum blond better Brie, so we went with that. [4] O'Malley added that after all, her hair in the movie is clearly a bleaching blonde, so you can imagine for yourself that Jealousy was redhead in college and painted for her great rock star makeover. [4] Thanks to the colourful versions of comics, O'Malley continued to give Jealousy red hair, because the red on the animated character simply has a completely different look and appearance. [38] In the draft script, her middle name is Veronica. [39] Stacey Pilgrim Stacey Pilgrim (Rated T teenagers) is Scott's 18-year-old younger sister, who is much more mature than Scott. She works in the same second cup as Julie Powers and also makes friends with Ramona. She gets a fair amount of rumors from Wallace, although it usually annoys him to steal all his friends. Stacey plays Anna Kendrick in the film Scott Pilgrim vs. The World. Stacey relies on O'Malley's sister, who has the name Stacey. When O'Malley was asked in retrospect which character he would remove if he could choose one, he said it would be Stacey and he explained that he kind of did remove it as the story went... You'll notice that it barely books at all after the first few volumes. I just felt strange putting my sister out there in the world as the books became more popular. So anyway, I probably would have changed Scott's sister's name or something if I were smarter. I'm stupid. [40] Julie Powers is Stephen Stills' 22-year-old ex-girlfriend. She attended the same college that Stephen and Scott did. She was roommates with Envy before Scott started dating her. Despite hating her in college, she was trying to (unsuccessfully) return to Jealousy for good grace when she became famous. She was also friends with Ramona before she and Scott started dating. She tries to keep Scott away from Ramona, claiming that she thinks he is a loser. Her character is described as ass and unpleasant, and she often struggles/contends with other characters, even befriending two of Ramona's evil exes as they try to fight Scott. At one point, she suspects that Stephen and the knives may have a mutual urge, causing her to respond to knives with hostility. During Volume 5 she starts hosting regular themed parties in her loft apartment, with themes from Halloween, Underwater Pimp and Hoe, Canadian Politics circa 1972, but you're secretly Batman, as well as the day of the dead party. Julie plays Aubrey Plaza in the film Scott Pilgrim vs World. Plaza received a list of ten secret facts about Julie the night before the start of filming. Plaza has since revealed at least two facts and has said that some of them were bizarre[41] and stupid:[42] first, she is allergic to cauliflower[41][42] or penicillin[43], depending on the interview, perhaps both (in one of the interviews it also means that penicillin allergy may have been the point of the scene plot. scenes) in the film, which was later cut out. Secondly, as she said, ... one of my secret facts was that Julie had a massive crush on Scott Pilgrim in college, and he never liked her. So it was helpful because I was like, no wonder she hates it. [42] Plaza is expanding on this issue in another interview, saying: ... he had little flings and crushed all his friends, but never really pointed out to her that really made mistakes for her. [44] According to O'Malley, the plot point about Scott dating all the other characters around Julie Powers was created by himself, and that he was not in the original work. [1] The Evil League of Exes Evil Exes League was founded when Ramona left Gideon in Toronto. When he finds his six other exes online, he manipulates them to believe that Ramona was responsible for their split. He uses his anger to shape them in the image of evil. They believe it is a plan to avenge her, but Gideon's secret intention is to use Ramona's ability to travel one space to manipulate the minds of all on Earth. The team was set up two weeks before the events of the 1th vol. Every time Scott defeats one of them they become (or drop) coins according to their place on the list much like enemies from the River City Ransom NES video game of the '80s. 1. Matthew Patel is Ramona's first evil ex. According to Ramona, they kissed only once and divorced about a week later. Scott initially ignored Matthew's repeated challenges to deal with him, leaving him confused when Patel arrived at Rockit. He is An Indo-Canadian, has mystical powers (flight and ability to hurl fireballs) and can summon demon hipster chicks at will. Scott gets \$2.40 for defeating him. Matthew plays Satya Bhabha in Scott Pilgrim vs. the World, in which his fight scene resembles Bollywood's musical number. His demons are portrayed by stage actress Christine Watson. In the film adaptation, Ramona mentions that she liked that he was the only non-white, non-jock boy at school. 2. Lucas Lee is Ramona's second evil ex, a pro skateboarder turned movie star (and sold out). Scott gets \$1.4 coins and a mithril skateboard (that he can't use because he doesn't have skateboarding qualifications) after defeating him to trick him into trying a dangerous skateboard trick. He is named after pro skateboarder turned actor Jason Lee, whom Scott often mistook as him. Lucas plays Chris Evans in the film Scott Pilgrim vs World, where he fights Scott against his deadly skateboard trick using a stunt double guy. Chris Evans described Lucas as a little jerky, a little full of himself, not the best actor in the world. [45] 3. Todd Ingram is Ramona's third evil ex, bass player of the clash at demonhead band. He has special vegan mental powers (although he secretly consumes non-vegan foods). He is arrogant, narcissistic, unconcerned, and is also a pathological liar. He dates Jealousy, his love, but deceives her repeatedly with Lynette, the band's drummer, as well as with other girls. He is caught by the Vegan Police for breaking the diet and has his powers taken away, giving an advantage to Scott. Scott gets some money (again on coins) plus extra life when he defeats him. Todd is named Scott Ingram, a real-life inspiration song by Scott Pilgrim. He plays Brandon Routh in the film Scott Pilgrim vs. The World. In the movie adaptation, Todd never displayed a cheat envy, and Scott gets vegan police told to trick him to drink half-and-a-half. 4. Roxanne Roxie Richter is Ramona's fourth evil ex and her former college roommate. She is a half ninja (kunoichi) and accomplished painter who taught Ramona a lot of what she knows about her ninja abilities and subspace. Scott is usually against fighting girls (or someone with a sword), so Ramona fights Roxie, part time using Scott's body as a weapon. Roxie has a complex of inferiority above her semi-ninja background, as well as her figure - she is much shorter than Ramona. Despite his status as an evil ex, Roxie gets well with Ramona but openly hates Scott, claiming Scott is a lazy ass who refuses to fight his battle, prompting Scott to finally mature his relationship with Ramona, gaining a sword and the power of love (a reference to a Huey Lewis song [46]). The final fight scene between her and Scott is a reference to Ninja Gaiden at the beginning. When defeated by Scott, it explodes into a cascade of wooded creatures, referring to Sonic the Hedgehog. Roxie, written in Rox y's film, plays Mae Whitman, where she fights Ramona and Scott in a nightclub after party (combining elements of Ramona and Envy fight Vol 3 and Winnifred Hailey fighting Free Scott Pilgrim [quote needed]). Scott barely defeats her by interfering with her weak spot on the back of her knees (so she explodes into coins rather than wooded creatures), which was how Ramona defeated Envy in comics. 5.& 6. Kyle ∓ Ken Katayanagi (Ken is called Kevin in a video game) is Ramona's fifth and sixth evil exes, a pair of Japanese twins who often end each other's sentences. The pair are expert robots who shout robots to fight Scott. They promised to work closely together when the couple realized that Ramona was cheating on each other. The twins captured Kim Pine to seduce Scott with them, stating that while Kim may still be in love with Scott, Scott defeated them and receives \$79.95 for Ken, \$74.95 for Kyle, as well as the \$2 twins bonus (again all coins) after defeating both of them. It also unlocks the achievement of defeating them simultaneously (which is available in the video game). Kyle and Ken play real life brothers Shota [her] and Keita Saito [her] respectively, in the film Scott Pilgrim vs. The World, where they are instead DJs who engage in sex bob-omb mystical amp battle time Group Battle Round. They initially surpassed Sex Bob-Omb, inviting double dragon animals from their amps, but eventually defeated when Scott shouts to the Yeti, activating his distortion pedal. Since the saith brothers did not speak English from the universe, their characters (who can speak English in the universe) did not speak at all in the film. In the video game, Ken's name became Kevin in order to feel a looser video game adaptation and refer to Double Dragon 3, where Billy was incorrectly introduced as Bimmy. [47] 7. Gideon Gordon Graves is the seventh evil ex in the series and the leader of Ramona's evil Exes League and has offered to be Ramona's boyfriend against Scott in New York. He is mentioned several times throughout the series, but never seen until the end of Volume 3. He is the owner of the Chaos Theatre (a reference to EarthBound), NYC and GGG Heavy Industries, which opens the Chaos Theater in Toronto. Ramona also worked for him in a previously unknown capacity eventually he threats tuss with Scott. There is also a small cat living in Ramona's house of the same name, although it is revealed that Ramona refers to it only as a way to deal with a fracture. Gideon finally appears in the last volume as the inventor and club entrepreneur who opens a new club, Chaos Theatre, in Toronto. He begins a relationship with Envy, promoting his new solo album and set his debut as his club's opening act. During this time, he meets Scott, who is fleeing rather than struggling with him, although their change is inevitably inevitable. He has obvious control over the subspace, the side effects of his ability to cause emotional war through glow, which basically traps people's minds with his psychological issues. Using this allows him to just be inside Ramona's head. He can also steal Scott's Power of Love katana and prove to be a competent sword. After his defeat, he shows \$7,777.77 (again, coins) at the Chaos Theatre. Gideon plays Jason Schwartzman in the film Scott Pilgrim vs. World, which also controls Ramona's head through the use of chipsets. One of the ten secrets gideon had was that Gideon is a very passive aggressive and therefore he is not openly evil. He smiles a lot, just kind of kill'em with kindness, but you can feel that he's not sincere almost instantly. Schwartzman also stated that he really liked to learn about this aspect of the character. [10] Small characters Lynette Guycott is the drummer of the band Clash at Demonhead. She once had a biomechanical arm (now cut off). It can teleport and is named after Plumtree's drummer Lynette Gillis and Tom Guycott from a video game of the same name. [quote required] In the original book and video game, she has an affair with Todd Ingram, the boyfriend of Envy. Lynette plays Tennessee Thomas in the movie Scott Pilgrim vs. The World. Nor to portray Lynette having an affair with Todd. In the book Lynette punches knives, but in the movie, Todd punches her instead. Hollie is Kim's 25-year-old collaborator and former roommate. She is described as beautiful, although she and Kim have to fall out after Kim learns that her boyfriend at the time, Jason Kim, cheated on her with Hollie. As to why Hollie deceived Kim, O'Malley said, Kim lived with a bunch of people she hated, then moved in with someone she liked and ended up hating her too. We only see Kim's side of the story, but maybe I suggest that Kim is part of the problem here. This kind of goes with a personal hero narrative theme series. Kim is complicated. [4] Joseph is Hollie and Kim, 24, a soft-spoken (but abrasive) gay roommate who owns the tachograph. He's on the Todd Ingram crush and finds Stephen Stills attractive. This leads him to help Sex Bob-omb record his album. By the end of the series, he and Stephen are revealed to be having a relationship together after Stephen realizes that he is gay and goes out. Boys! And Crash! (formerly Crash And The Boys) is another local band made up of Luke Crash Willson, singer and guitarist, Joel MacMillan, bass player, as well as Trisha Trasha-Ha, drummer. Like the history of other bands, they are named after the video game (Crash 'n Boys: Street Challenge). After changing its name, the group learns an advanced technique that allows you to manipulate pure sound waves through hard work and will, so that they do not need to play instruments. They help Scott defeat Todd Ingram. In the film Scott Pilgrim vs. The World, Crash starring Eric Knudsen, Joel plays Maurie V. Kaufmann and Trasha plays Abigail Chu. In the movie, however, Crash, Joel and Trisha are burned in a stray fireball in Scott's battle against Matthew Patel. The tape is not a reference to The Locust or any real-life tape. [46] Michael Comeau is a friend of Scott who, as stated in the books, knows everyone (including you). Based on Bryan Lee O'Malley's friend of the same name, the Toronto graphic artist. He has a ring that helps him identify the names of people he claims to have received from the future itself. In the film Scott Pilgrim vs. The World, Comeau plays Nelson Franklin. Sandra is a former friend of Scott's class and is described as a kind of dit. [48] In the film Scott Pilgrim, Sandra plays Kristina Pescic in the film Scott Pilgrim. Monique is another former Scott's classmate, described as a kind of. [48] In the film Scott Pilgrim vs. the World Monique is played by Ingrida Haas. Sandra and Monique were named after two classmates of O'Malley who attended high school with him around 1991-1992. [48] Sarah is one of Kim Pine's unpleasant former roommates. Simon Lee is a figure of Scott's and Kim's past who used to date Kim and later kidnapped her. He's like Gideon. However, Volume 6 reveals that this is because Gideon was using the subspace to change Scott's memories and Simon Lee, in fact, looks nothing like Gideon. In Scott Pilgrim vs. Animation Shorts, Simon voiced Jason Schwartzman. Tamara Chen is Knives' 17-year-old best friend and usually rational foil knives for crazy plans and ramblings. In the film Scott Pilgrim vs. The World, Tamara plays Chantelle Chung. Lisa Miller is an old high school friend of Scott and Kim's, as well as a Canadian soap opera actress who is introduced to the flashback at the beginning of Volume 2. She returns to Volume 4, inciting one-sided sexual tension between her and Scott, so Ramona becomes jealous, despite Scott not knowing Lisa's progress. She and Scott later discuss why they never acted on their possible attractions to each other in high school and during their discussion, Scott comes to terms with his feelings of true love toward Ramona. Lisa then moves to California to continue her acting career and is given a big farewell dinner by the remaining characters. In Scott Pilgrim vs. Animation Shorts, Lisa voiced Mae Whitman. Like Kim Pine, the name Lisa Miller first used Bryan Lee O'Malley in her short-lived comic book band Style. [31] O'Malley created the idea of Whitman (who starred in roxie film) voicing Lisa's animated short. [49] As for the height of Lissos, O'Malley said he is average. [3] Scott is Wallace's best friend, whom Scott Pilgrim calls another Scott. His name is unknown. In the film Scott Pilgrim vs. The World, Next Scott is rewritten as Wallace's boyfriend and starring Ben Lewis. Jimmy was Stacey's boyfriend until Wallace seduced him. In the film Scott Pilgrim vs. The World, Jimmy plays Kjtaran Hewitt. Mr. and Mrs. Pilgrim are Scott's parents, featured flashbacks volumes 2 and 3 and appear in Volume 5 now, helping Scott move into his new apartment. His father seems to be spoiling Scott, whom his mother is chasing. O'Malley suggested that the character Vincent in the short comic Monica Beetle (who originally appeared in Project: Superior Anthology) might be Scott Pilgrim's dad having a Pilgrim-esque adventure in 1974. Lawrence West Pilgrim[4] is Scott's younger brother. It is first mentioned in Volume 2 and appears in volume 5. He owns the bass guitar Scott uses. He's been wearing glasses since he was 14. Scott later gets confused and mistakes him (and each one with glasses at the end of volume 5) for Gideon. His name is a reference to a subway stop in Toronto. His name is Lawrence West, and his family name is Pilgrim. O'Malley was going to make a very different character, which had an important role to play in volume 5. O'Malley decided that I was getting too far from the Scott/Ramona relationship, adding too many new characters, and I decided to re-focus the book on the main cast. [4] Jason Kim is a friend of Kim who owns the car and who helps her move her place with Hollie. Scott never remembers who he is, but apparently he and Kim were dating at some point. Jason eventually cheated on her with Hollie, which caused them to break up. Mr. Chau is The Father of Knives. It has a collection of antique samurai swords. His discovery that the knives were dated to a white guy caused him to go on a rampage, hunting Scott down and attacking him with his samurai swords. Scott later gets his endorsement, prompting him to tell Knives that he won't mind if she dates another white guy in the future (his only spoke dialogue), but says it's Chinese, so she doesn't understand. Mr. Chau appears in Scott Pilgrim vs World: A game like unlocking a character who can be summoned instantly to help the player fight. He is unlocked facing him on the overworld map and defeating him to fight. Holme Wallace guy. He and Wallace meet while dancing at the club and the two are revealed to have been dating since Volume 3. He and Wallace move together at the end of Volume 4 and he makes his first appearance on Volume 5. He is mentally and, according to Wallace, he attends business on an astral plane. The Vegan Police is a group that briefly appears at the end of Volume 3, which has proven to have jurisdiction over the actions of mental vegans. Two of their officers (one wise and caucasian, the other like Buddha [quote needed]) seem out of nowhere during the protracted battle between Scott Pilgrim and Todd Ingram. As punishment for cheating on their vegan diet, they strip Todd of his powers, so Scott finally defeated him. In the film Scott Pilgrim vs. World, two officers play (uncredited) Thomas Jane and Clifton Collins Jr., respectively. They vaguely resemble Andys from Edgar Wright's Hot Yuz. [quote required] NegaScott has a dark negative side to Scott, a reminder of all the mistakes Scott has made in the past. Scott has been running away from him for so long, which is partly why his memories are a bit inaccurate. When Scott encounters NegaScott in Volume 6, Kim reminds him to stop acting on his mistakes. After remembering Ramon, Scott stops fighting him and blends in with him, restoring his memory. NegaScott plays Michael Cera in the film Scott Pilgrim vs. The World. In the film adaptation NegaScott is revealed to be the main movie boss and looks like Scott defeats Gideon much like the shadow clone's final boss of the double dragon II kick and punch videogame of the '80s. NegaScott is an unlocked character in Scott Pilgrim vs World: Game. Winnifred Hailey is a 16-year-old actress who was supposed to star in the film with Lucas Lee before he defeated Scott Pilgrim. Free Scott Pilgrim, several poster images of Winnifred come to life, apparently due to some ninja magic. They attack Scott, who, being Hitting the girls, forcing Ramona to use it as a puppet to fight them. When they defeated, they burst into a few free drinks coupons. In the film Scott Pilgrim vs. The World, she briefly appears on the film set of Casa Loma. She's played by Emily Kassie. Bars For this article, check you need additional citations. Please help improve this article by adding quotes to trusted sources. Unresolved material may be challenged and removed. Find sources: Scott Pilgrim character list – news - newspapers - books - scientist - JSTOR (December 2010) (Learn how and when to remove this template message) The names of all Scott Pilgrim bands have so far been links to video games. Sex Bob-omb is a Scott band with Stephen Stills (vocals and guitar) and Kim Pine (drums). The title refers to Bob-omb, the character of the Super Mario series and either the Flipper song Sex Bomb, or tom jones song of the same name. They are an average band, neither wildly popular nor scary, although later recording their album results in the band's banality is unlikely to ever play concerts or practicing and thus get rusty. In the film Scott Pilgrim vs. World movie, Sex Bob-omb music is written by Beck. Clash at Demonhead is a tape of Scott's ex-girlfriend Envy. The title associated with the NES game Clash at Demonhead also resembles a punk band clash. The band and stage envy clothes were inspired by the band Metric, which is also from Toronto, and their music is performed by Metric in the film. (50) Sonic ∓ Knuckles is the first Scott group in high school with Kim Pine and Lisa Miller. It is named after Sega Genesis game Sonic ∓ Knuckles. Crash and Boys is another local band whose songs are as short as 0.4 seconds long. Its name refers to the NES game, Crash 'n Boys: Street Challenge, localized in the Japanese Kuno-kun series. They later renamed themselves Boys! And Crash! 3 in the post-coup. In the film, their music is performed by Broken Social Scene. Kid Chameleon is in Scott university group with Stephen Stills, Envy, as well as Young Neil's sister Stephanie, among others. It is named after Sega Genesis game Kid Chameleon. Shatterband is a band made up of Scott Pilgrim (guitar and vocals) and Kim Pine (drums) at the end of Volume 6. Much like Sex Bob-omb, Kim is shown shouting We're Shatterband! ONE-TWO-THREE-FOUR! the beginning of one of their songs. As it turns out, the only two people who could be their fans, Knives Chau and Young Neil, have a developed taste, so they decide to play only Ramona's cat. Before this tape is formed, Scott offhandedly suggests the name Stephen's new tape, saying that he has been holding on to it for some time (the fact that Scott and Kim used the name suggests that Stephen didn't take it). This tape is probably named after the NES game Shatterhand. Links Canada Portal Comics Portal Film Portal Video Games Portal ^ a b c O'Malley, Lee. 10 secret things for each character.
